Product Features

• **Micro-Interaction with Customers**
Customers can access additional product information by scanning the QR code in the InfoTag with their smartphones.

• **LED Flash Light**
Designed with built-in LED light, the LED light can be used to highlight the products on promotion and attract shoppers' attention. It can also be used for merchandise picking.

• **Monitoring Made Simple and Efficient**
T@POP CMS enables headquarters to monitor real-time status of the system, tags and store details. Update multiple product information and pricing in one setting.

• **Extra Page for Merchandising Information**
Useful information such as inventory, delivery details on the additional page. Operators can also opt to use InfoTag with split screen for product information.

• **Personal Shopping Using NFC**
Simply scan the tag using the NFC function on your smartphone and the list of allergens, products details can be viewed via the Shopping App.

InfoTag..

• **High Definition ePaper Displays**
The ePaper display offers paper-like readability and extremely low power consumption.
